

CHARLOTTE

PIPE AND FOUNDRY COMPANY

Cast Iron Soil Pipe and Fittings Recycled Content

To: Our Valued Cast Iron Soil Pipe and Fitting Customers

Charlotte Pipe and Foundry Company certifies that its cast iron pipe and fittings products are made from 96% post-consumer recycled material.

Each year we prevent more than 350 million pounds of scrap iron and steel from entering overcrowded landfills by converting it into cast iron soil pipe and fittings. Additionally, the cast iron piping is 100% recyclable at end of life and can be recovered to make new cast iron pipe and fittings, or other metallic products. All of Charlotte Pipe and Foundry's cast iron pipe and fittings are produced in Oakboro, NC.

If you have any additional questions, please call 704-348-5408. Thank you for your interest in Charlotte Pipe and Foundry Company.

Sincerely,

David Waggoner
Technical Director
Charlotte Pipe and Foundry Company
