

CHARLOTTE

PIPE AND FOUNDRY COMPANY

LEED Documentation Data Sheet

Complete a separate data sheet for each product of material.

Product/Material (generic):	Cast Iron Soil Pipe
Manufacturer:	Charlotte Pipe and Foundry Company
Product Cost (total material cost for project):	

Recycled Content:			
Post-Consumer	96%	Pre-Consumer	0%

Regional Materials:			
Manufacturing Location: <u>Oakboro, North Carolina</u> <i>Manufacturing means final assembly of shop-assembled componenets, prior to shipping.</i>			
Distance to Project Site: _____ miles			
Material Sources: <i>List below the component materials used in manufacturing the product, along with the location and distance of the source for those materials.</i>			
Material:	<u>iron and steel scrap, truck 25% of total tonnage</u>		
Percentage of Prodcut by weight:	<u>100%</u>	Distance:	<u>99</u> miles
Material	<u>iron and steel scrap, rail car 75% of total tonnage:</u>		
Percentage of Prodcut by weight:	<u>100%</u>	Distance:	<u>415</u> miles
Material:	<u>90% Silica Carbide</u>		
Percentage of Prodcut by weight:	<u><1%</u>	Distance:	<u>440</u> miles
Material:	<u>Pet Coke</u>		
Percentage of Prodcut by weight:	<u><1%</u>	Distance:	<u>440</u> miles
Material:	<u>Ferro-Phosphorus</u>		
Percentage of Prodcut by weight:	<u><1%</u>	Distance	<u>430</u> miles
