Earn ASPE CEU Credits with Charlotte Pipe, An Approved CEU Provider

CHARLOTTE, NC – May 7, 2015. Plumbing professionals have another reason to attend programs by Charlotte Pipe Representatives. Along with gaining technical knowledge, ASPE members attending will receive Continuing Education Unit (CEU) credits and certificates.

Charlotte Pipe has four programs approved for CEU credits – Cast Iron Soil Pipe, Laboratory Design Basics and Special Waste Pipe Systems, Cast Iron Specialty Fittings for Multi-Story Construction, and Value Engineering. Each offers technical information to help plumbing engineers and designers when working with these topics.

CEU credits are especially important for members who have earned Certified in Plumbing Design (CPD) or Certified Plumbing Design Technician (CPDT) designations, because CEUs satisfy the continuing education requirements of ASPE.

Also, regulatory boards in some states recognize ASPE accreditation, so plumbing engineers (PEs) can count the CEUs earned towards their state's requirements for continuing education. Engineering firms interested in booking a Charlotte Pipe Representative can contact the company at 800-438-6091.

About ASPE CEUs

Education and professional development programs that ASPE consider for CEU credits are defined as efforts undertaken to advance, broaden, and enhance the individual's technical knowledge and job skills in plumbing design / engineering career. These skills are in engineered plumbing systems serving residential dwellings and commercial, institutional, industrial and public use facilities, such as hospitals, laboratories, factories, schools, shopping centers, stadiums and the like.

About ASPE

The American Society of Plumbing Engineers (ASPE) is the international organization for professionals skilled in the design, specification and inspection of plumbing systems. ASPE is dedicated to the advancement of the science of plumbing engineering, to the
