

AMERICAN MADE. AMERICAN PAID.

Charlotte Pipe and Foundry is proud to reward its associates with a \$1,000 bonus.

Thanks to the recent passage of the Tax Cuts and Jobs Act (TCJA) by President Trump and the Republican Congress, Charlotte Pipe and Foundry is pleased to reward each of its hardworking associates with a special \$1,000 bonus. The TCJA is already helping to boost manufacturing and strengthen the economy, as companies like ours are using the tax savings to provide bonuses and increase investment. These tax cuts will ultimately allow American manufacturing and craftsmanship to thrive more and more, year after year. The best part: it's not only corporations that benefit from these tax cuts. American workers will likely see increases in their take-home pay from lower tax rates and increases in the standard deduction and child care credit. And that's good news for everyone.
