*UNIVERSAL PRODUCT CODE NUMBERS

Universal Product Code (UPC) Numbers are recognized worldwide as the preferred means of product identification for Electronic Data Interchange (EDI). Each UPC number uniquely identifies a part.

The eleven-digit UPC numbering system uses the first six digits to identify Charlotte Pipe as the manufacturer, and the last five digits to identify an individual part or product:

611942
(Charlotte Pipe)

00000
(Product)

Only the last five digits of the UPC number are needed to order a product by mail, phone, or fax. The entire UPC number is needed for use with EDI.

Weights are approximate and for shipping purposes only.
